to succeed*

Why choose Eversheds Lupicinio?

You can trust us

For more than 25 years we have been delivering advice that helps our clients to succeed in their goals. Our service, covering the full range of business law, is delivered by lawyers with sector experience as well as legal knowledge.

You can trust us with work that goes beyond the borders of Spain. We are part of Eversheds International, one of the largest global law firms in the world. That means you will receive a seamless service wherever you do business, from teams of lawyers who work together on a daily basis and deliver the same high standard of service. We can drive your projects to completion quickly and at a lower cost.

You get control

In today's uncertain world clients want greater predictability from their law firm in terms of the work they do and the fees they charge. We provide this control through our unique project management approach where work is carefully scoped, intelligently planned and clearly budgeted.

This approach delivers shorter timescales, better communication and greater cost efficiency. At all times you will know what we are doing on your behalf and why we are doing it. For even greater certainty, we can also offer you alternative fee structures such as fixed costs.

You enjoy genuine collaboration

To be truly effective, we want to become a vital part of your team – people you can rely upon at all times to co-ordinate your affairs worldwide. By getting close to you we can better understand your needs and ensure our advice is focused on what you want to achieve.

This collaborative attitude means we are able to handle all your issues through a multidisciplinary approach where you get the necessary specialist skills as well as a single point of contact.

You will find our people to be highly professional, enthusiastic, open and friendly. We are lateral thinkers, always looking for a better way of doing things and delivering solutions rather than legal analysis. We are always listening – our service is not set in stone and if your demands change then we will change to meet them.
