

Focused on Denmark

Meeting your needs through our seamless international legal service

Denmark is widely recognised as one of the best places in the world to set up business. In 2010, for the third year running, Forbes has placed Denmark first for doing business worldwide and in its 2010 'Ease of doing business Report', the World Bank rates Denmark as second in Europe and sixth worldwide.

The well-educated workforce, combined with the Danish "flexicurity" workforce model and a world-class public service means that it is easy and cheap to scale business operations up and down in Denmark. In its 2010 survey IMD found the Danish labour market to be the most flexible in the world. All of this means that Denmark is a jurisdiction to bear in mind when you consider where to set up or acquire business operations or otherwise do business.

Expertise in Denmark

Eversheds is one of the world's leading law firms. With offices throughout Europe, Middle East, Africa, Asia and beyond, we can supply you with legal coverage anywhere you may need it.

Our local expertise, combined with our international reach, has proved invaluable in helping our clients to achieve their goals. Whether you are an ambitious local company looking at expansion or a potential investor exploring opportunities in Denmark, we have the strength and resources to help.

Eversheds has had an office in Copenhagen since 1998 and our full-service team advises both Danish and multinational clients from a wide variety of sectors including industrial engineering, IT, aviation and defence, energy, transport, retail and financial institutions. Our multilingual team is at ease both with complex multi-jurisdictional matters and with the day-to-day legal issues faced by companies operating in Denmark.

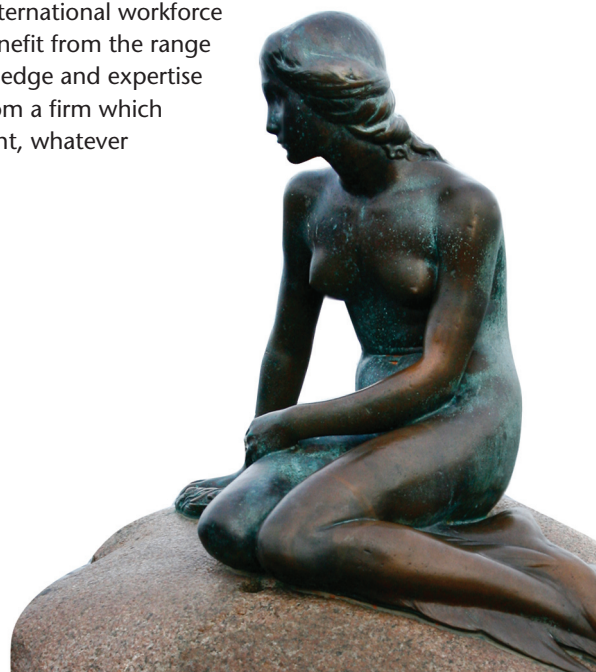

We advise our clients on all aspects of business law including corporate, projects, commercial, employment, tax, competition, regulatory, data protection, real estate, compliance and dispute resolution. We are the only truly international law firm with an office in Denmark.

An original approach

Our ability to deliver a high standard of integrated service across all jurisdictions has been tested and proven to work. We deal constantly with large-scale projects involving multiple jurisdictions as well as countless day-to-day activities that help our clients manage their operations across the world.

Eversheds is not just about size. We are a progressive firm that does things differently and has created a global service with your needs in mind. For example:

- We are committed to the management of law as a business process. All of your work will be scoped, planned and budgeted upfront and then carefully project-managed to conclusion.
- We understand you do not have unlimited legal budgets and often have short timescales. We deliver innovative fee solutions and have proven success in achieving cost savings and performance improvements with multinational clients. Fees are managed so that you avoid surprises.
- We can offer a single point of contact for advice on all of your legal issues, regardless of size, nature or jurisdiction.
- We understand the languages, cultures, legislation and ways of doing business you need to succeed.
- Our dedicated business groups (Africa, Asia, Latin America, Russia/CIS and North America) are made up of specialist lawyers who can guide you through transactions in these often complex marketplaces.
- Our diverse international workforce means you benefit from the range of skills, knowledge and expertise that comes from a firm which embraces talent, whatever the origin.
