## *Our seamless international legal service*

Eversheds is one of the world's leading law firms. With offices throughout Europe, Middle East, Africa, Asia and beyond, we can supply you with seamless legal coverage anywhere on the planet.

Our ability to deliver a high standard of integrated service across all jurisdictions has been tested and proven to work. We deal constantly with large-scale projects involving multiple jurisdiction as well as countless day-to-day activities that help our clients manage their operations across the world.

These clients often make us responsible for managing firms in any country where they require legal services. Our local knowledge, combined with an international overview, has proved invaluable in helping them to achieve their goals. We can help you to achieve yours.

### **An original approach**

Eversheds is not just about size. We are a progressive firm that does things differently and has created a global service with your needs in mind. For example:

- We are committed to the management of law as a business process. All of your work will be scoped planned and costed upfront and then carefully project managed to conclusion.

- Our award winning technology allows you to see exactly what our lawyers are doing on your behalf in all the countries where you operate. You can instantly approve scope of work, team structure and fixed costs and receive vital management information that allows you to improve your performance and demonstrate value to your internal clients. Nobody else offers a comparable service.
- We understand you do not have unlimited legal budgets and often have short timescales. We deliver innovative fee solutions and have proven success in achieving cost savings and performance improvements with multinational clients.
- We can offer a single point of contact for advice on all of your legal issues, regardless of size, nature or jurisdiction.
- We understand the languages, cultures, legislation and ways of doing business you need to succeed.
- Our dedicated business groups (Africa, Central and Eastern Europe, China, India, Latin America, Middle East and North America) are made up of specialist lawyers who can guide you through transactions in these often complex marketplaces.
- Our diverse international workforce means you benefit from the range of skills, knowledge and expertise that comes from a firm which embraces talent, whatever the origin.
